Dear committee

This review is supposed to be about improving local government, but to follow the new regulations you will have to change Wexford from four districts to five with all the extra cost that would entail

Wexford as it stands has Gorey, Enniscorthy and New Ross with 8 seats and Wexford with 10 a total of 34

Four natural districts all long established and working well

If you were to follow the regulations as set out, Gorey would lose a seat it would have to go to Enniscorthy which in turn would lose

Two they can't go to New Ross as they have to lose one also, that means the only home for them is the Wexford district which

Then have 13 which means Wexford divided into two

To conclude a lot of disruption and a sizeable cost to the county with no improvement in the delivery of services to the people of County Wexford in the near or distant future as all the cost of this upheaval will have to be carried by the council

Yours sincerely

Pip Breen MCC Gorey
