To whom it may concern

I wish to submit the following submission for the upcoming review.

Currently the Listowel Municipal District has a population of 28,418 and 7 elected members giving a variance of -9.30.

To address this variance the following areas could be included in the new municipal district

1. Kilshenane
2. Kilflyn
3. Tubrid
4. Banna

This would bring the population of the Listowel MD to 30,461 leaving a variance of -2.78. This would protect the integrity of the Listowel MD and create a district that includes areas that would be historically associated with Listowel Town and North Kerry.

Regards

Cllr Jimmy Moloney
